Peter Gray's Free to Learn leads us out of the maze of unforeseen consequences to a more natural way of letting children educate themselves. Gray's message might seem too good to be true, but it rests upon a strong scientific foundation. Free to Learn can have an immediate impact on the children in your life."

Amazon.com: Free to Learn: Why Unleashing the Instinct to ...

A leading expert in childhood development makes the case for why self-directed learning – "unschooling" – is the best way to get kids to learn. In Free to Learn, developmental psychologist Peter Gray argues that in order to foster children who will thrive in today's constantly changing world, we must entrust them to steer their own learning and development. Drawing on evidence from anthropology, psychology, and history, he demonstrates that free play is the primary

The result: anxious, unfocused children who see schooling--and life--as a series of hoops to struggle through. In *Free to Learn*, developmental psychologist Peter Gray argues that our children, if free to pursue their own interests through play, will not only learn all they need to know, but will do so with energy and passion.

Peter Gray is an American researcher and scholar who is a research professor of psychology at Boston College. He is the author of a widely used introductory psychology textbook, now in its eighth edition. The book broke new ground when the first edition was published as the first general introductory psychology textbook that brought a Darwinian perspective to the entire field. He is also author of *Free to Learn: Why Unleashing the Instinct to Play Will Make Our Children Happier, More Self-Relian*
